

Warranty & Liability

The following spare parts are covered by a 2 years' warranty from the manufacturing date: compressor, condenser, fan, water pump, valves, AC, DC power, driver card, power card and TFT panel.

Any warranty requires that ordinary and extraordinary maintenance were carried out as stated in the Use & Maintenance-manual.

Any notification by the Distributor of any defective products must be evaluated by the Manufacturer's Technical Office.

In case the defective product is recognized as 'in Warranty', labour, replacement parts and transportation from the Distributor's warehouse to the Manufacturer's warehouse and from Manufacturer's warehouse to Distributor's warehouse are at Manufacturer charges.

In the event that the Manufacturer does not recognize the product as being 'in Warranty', the Distributor will be charged in full for the technical intervention including labour, replacement parts and transportation.

The Manufacturer shall be liable to the Distributor solely for acts of bad faith or gross negligence. The Manufacturer shall be, under no circumstances, liable to the Distributor, whether in contract or tort (including negligence) for loss of profit, loss of goodwill, loss of sales or business, loss of agreements or contracts, loss of information or data or special, indirect or consequential loss or damage.
